

FRUGAL Cabinets Online

Online Measuring Template

This guide along side the "How to measure your kitchen" video (www.frugalkitchenonline.com) will give you step-by-step instructions on how to measure and create a floor plan (aerial view) of your space. This information will provide our designers with everything they need. See measuring example below.

Example of a completed kitchen measurement template. This view is looking down from the ceiling.

FRUGAL Cabinets Online

STEP 1: Gather your supplies

- Tape Measure
- Pencil or Pen
- Copy of Measuring Template

STEP 2: Complete Contact and Necessary Job Information

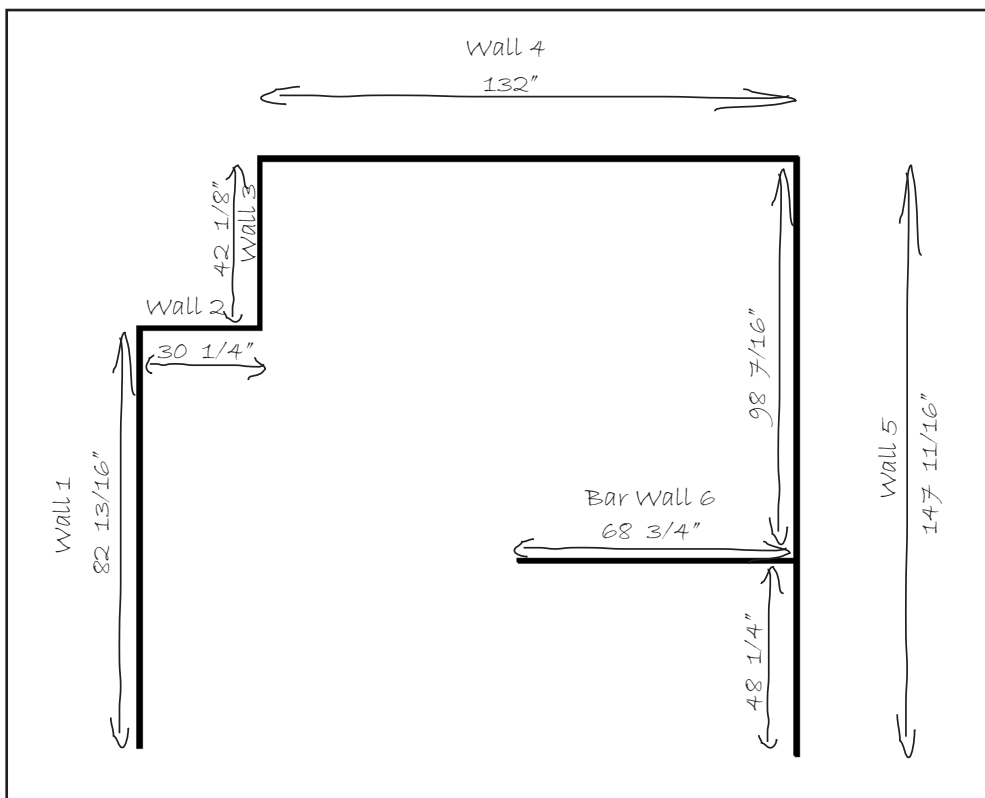

Name: _____ Phone: _____

Address: _____ City: _____ State: _____ Zip: _____

Email: _____ Door Style/Finish: _____

STEP 3: Measure Your Space

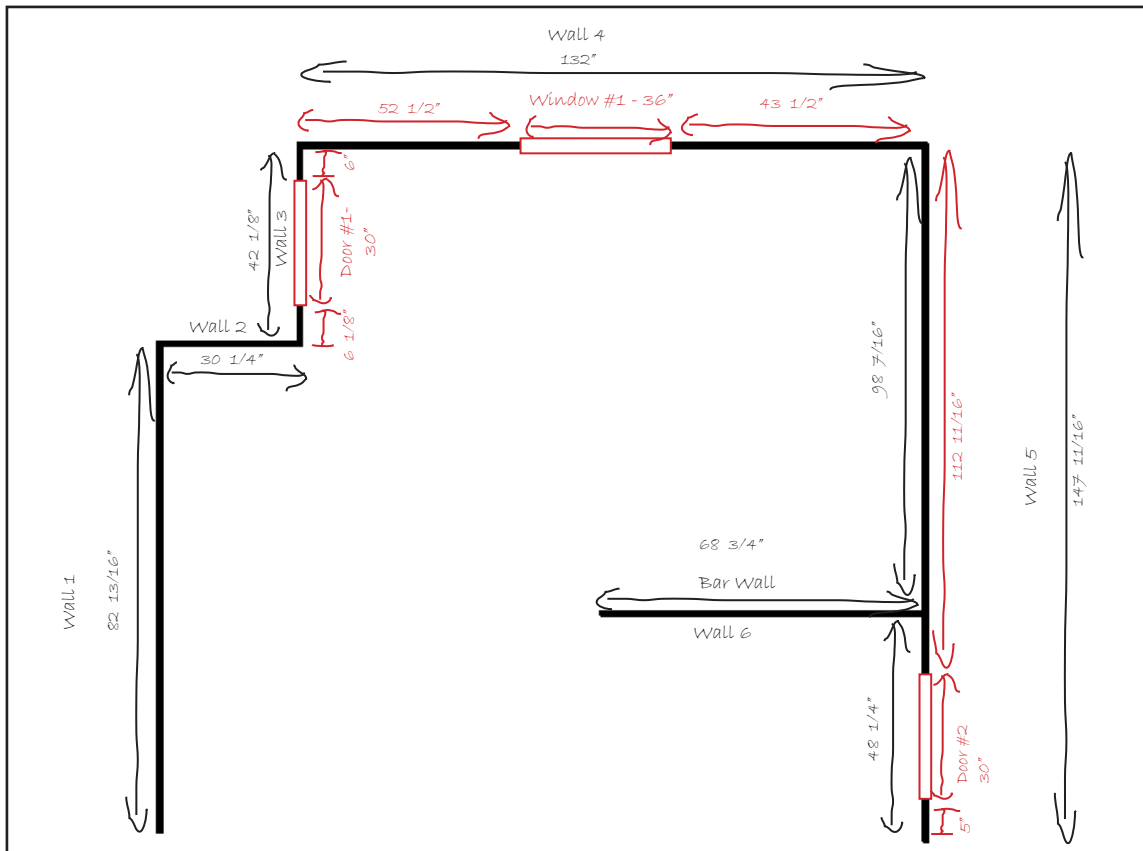

- Start on the left and sketch out each wall on the floor plan.
- Number each wall.
- Starting in the left corner, measure each wall in the space that will contain cabinets and record those measurements (in inches) on your template.

STEP 4: Room Openings, Doors, Windows

- Place room openings, doors, and windows on the template (shown in red below).
- Record and number each door, window and room opening on the template.
- Measure room openings, doors, and windows (including casing) as shown below and record on the template.

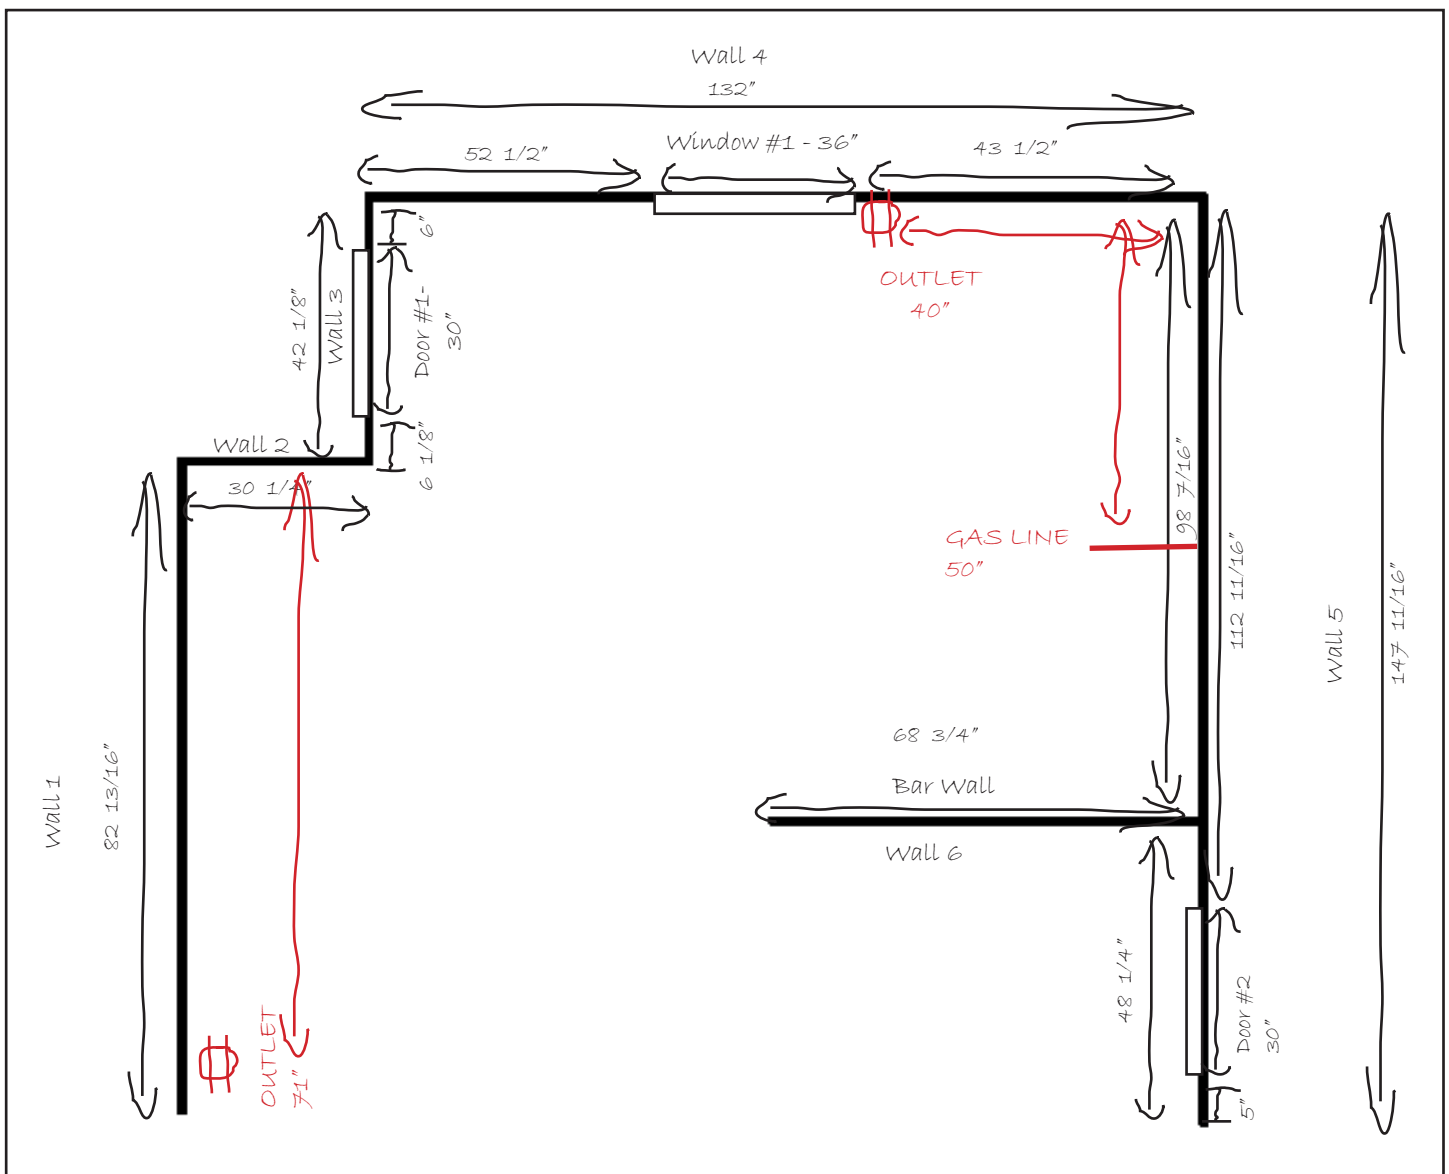

PLEASE MEASURE FROM THE OUTSIDE OF THE CASING

STEP 6: Appliances

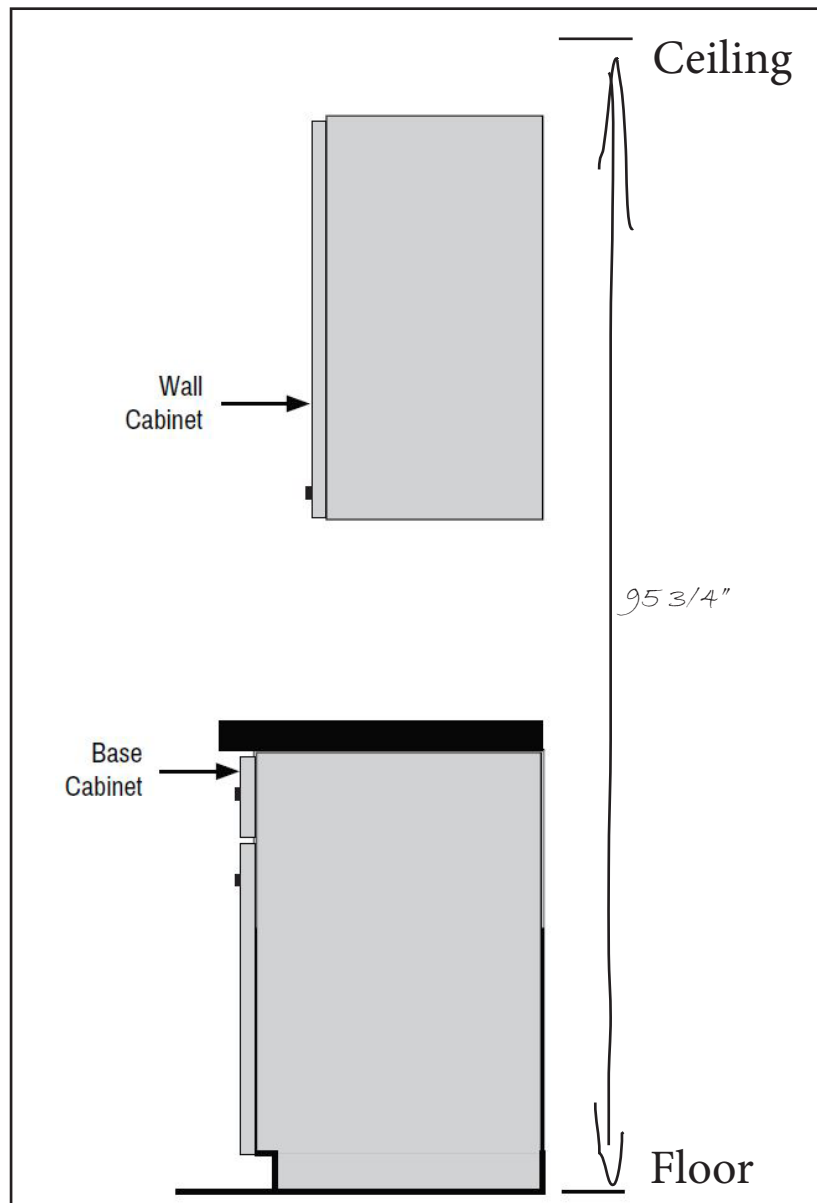

- Place all appliances on your floor plan in your desired location. If your getting new appliances, please record estimated sizes.
- Measure from the corner of a wall to the center of the appliance and mark that measurement on the template, as shown in red below.

STEP 7: Ceiling Height

- Please measure your ceiling height in three different spots and record the smallest number.
- If your home has soffits over the cabinets, please measure the soffit starting at the ceiling, measuring down to the top of the upper cabinet. If the soffits are being removed, this step is not necessary.

STEP 8: Photos

- Take photos from a variety of angles in front of your cabinets and send those photos too. The photos will help the designer understand your space and help with any questions that arise regarding measurements.

Floor Measuring Template

Use the grid below to draw the floor plan of your kitchen.

STEP 1: Gather Your Supplies

STEP 2: Complete Contact/Job Information

STEP 3: Measure Your Space

STEP 4: Room Openings, Doors, Windows

STEP 5: Measure Obstacles

STEP 6: Appliances
